Em
 Turn, turn, turn around
 My body is shaken, my body is slammed
 Turn, turn, turn around
 Drowning me with the noise
 And the sound
 Turning, turning 'round
 Dying and doomed
 We will be damned
 Turning, turning 'round
 I don't think my body
 Will ever be found

Em

Em
 See how Boreas is demented

A
 We will be broken and annihilated

Bm
 And Notus the destroyer of crops

A
 Will harvest our minds
 If it never stops

Em
 Eurus has risen from the East

A
 Smashing it all like a rabietic beast

Bm
 And even the gentle Zephyrus
A
 Oh when he's furious
 Oh what a dangerous god

Fall, fall, fall around
 Beware their wrath
 They're coming down
 Fall, fall, fall around
 Drowning me with the noise
 And the sound
 Falling, falling 'round
 We will go down
 We will go down
 Falling, falling 'round
 I don't think my body
 Will ever be found
