

Love Gone Astray, Part 1

D
I woke up early, early in the morning

Bm
I didn't want to see you crying

D
I wrote a note

Bm
Hoping that was all you were needing

I walked away and left
Before the sun went up
Not the most elegant breakup
What can I say
You know I didn't want to tear you up

But are there really better ways
When it is all over, to part ways
What is the point of hesitations and
delays

I did what I had to do
To let you begin anew
I disappeared like the morning dew

A **G**
Our love had gone astray
A **G**
Our love had gone astray
A **G**
Our love had gone astray
D **Bm**
And I went away

In the end, tell me
What will you remember
A whole year or that single hour
The way I left or what we felt together ?

I know what I will keep in my mind
I know what I leave behind
But our lives are better left untwined

Our love had gone astray
Our love had gone astray
Our love had gone astray
And I went away
Our love had gone astray
Our love had gone astray
Our love had gone astray

G **G#m** **Bm**
Look into my heart and you'll see why

G **A** **D**
I don't know how to say goodbye

D **G#m** **Bm**
Look into my heart and you'll see why

G **A** **D**
I don't know how to say goodbye

D **Bm**
I woke up early in the morning

D **Bm**
I didn't want to see you crying
